

INTRODUCING THE RCA HOTEL HUB

SAVE TIME & MONEY

Update every TV in the hotel in minutes, not hours.

Custom content on a custom Hotel Channel

Map channels & settings from a PC Application

The RCA H.U.B. makes it easy to update and adjust settings on every TV in your hotel. The traditional way of cloning takes hours, with RCA H.U.B. it takes minutes.

With RCA H.U.B. create custom content, on a custom hotel channel. Add video files, unique content or advertising to play on a house channel in every room.

Map channels, and set features in no time with the RCA H.U.B. Use the RCA H.U.B. Software to export settings data to a TV channel for remote installation, or by USB. Saving hours of setup time.

THE RCA TV HOTEL UNIVERSAL BROADCAST SYSTEM

Specifications & Features Subject to Change

Quickly Update TVs from your Computer...

The RCA H.U.B. (Hotel Universal Broadcast) system, increases in-room entertainment options, while reducing hidden costs of TV ownership. These hidden costs are the hours of labor required to maintain a TV network. Updating channel lineups and TV settings is costly when you must visit every hotel room. Using the existing coaxial cable network, the H.U.B System connects to all TVs on the property. Adjust and tune settings from your computer using the H.U.B. Software. When ready, update signals are sent to all TVs at once. Reprogramming them in minutes. Eliminating hours of labor, and saving both time and money. RCA's H.U.B System also provides a boost to in-room entertainment. Manage your existing cable or satellite providers channel lineup. Create custom content for guests, including movies, digital signage, event notifications and more. With the TV H.U.B. from RCA, spend more time entertaining your guests. Less time maintaining your TVs. Learn more about the TV H.U.B. System below.

Learn more about the key features of RCA HUB below:
