

Scheduling Switch Battery type / AC powered type

Project Name

Catalog Number

Notes

[Features (Battery type)]

- Intuitive operation & function
- Minimize labor cost with easy installation
 - ZigBee® wireless communication
 - AAA alkaline battery powered (easy replacement)
- More energy saving with integrated scheduling function
- Integrated RTC(Real time clock) & back-up battery embedded for durability
- 0.72 inch (1.84 cm) slim & sleek design
- Group control : On/Off/Dimming
- Dimmer switch provides continuous dimming by holding down the button up/down
- Lighting output continuously adjusts in over 100 step variables
- Compatible with RCA products only

[Features (AC powered type)]

- Easy replacement to new or existing switch locations
 - fits into standard wallbox (deep wallbox preferred) and decorator style faceplate
- Minimize labor cost with easy configuration
 - ZigBee® wireless communication
- Two-wire (non-neutral) applicable for retrofit applications
- Energy saving with set-scheduling
- Real time clock & back-up battery embedded for durability (rechargeable by line voltage)
- Intuitive operation & function
- Dimmer switch provides continuous dimming by holding down the button up/down
- Lighting output continuously adjusts in over 100 step variables
- Compatible with RCA products only
