

COMMERCIAL LIGHTING & CONTROLS

THE MOST TRUSTED NAME IN ELECTRONICS

RCA COMMERCIAL LIGHTING

THE RCA DIFFERENCE

RCA Commercial Electronics offers a complete line of lighting fixtures with integrated wireless controls. With decades of electronics experience, RCA is uniquely positioned to provide smart lighting and control solutions to the commercial/industrial lighting market. RCA focused on the “smart” (wirelessly controlled) side of the lighting business from the beginning. This decision has proven effective as the lighting industry continues to include lighting controls in more products.

“Smart” lighting can be as simple as an “out of the box” occupancy sensor solution to a large group of fixtures with wireless connectivity. Our complete line of wireless wall switches, sensors and controllers make RCA your complete source for all lighting projects. Our troffers, downlights, highbays and linear strip lights are all in stock with our RCA wireless control components installed. RCA Lighting products are easy to order and easy to commission.

Our Lighting Applications and Controls team is ready to help during the design and installation of your next lighting project. We hope you find this catalog helpful and please contact us (support@rcacommercialtv.com) with any questions.

SENSOR CONNECT

SMART LIGHTING CONTROL SYSTEM

NEW!
DLC LISTED **NLC 5.0 LISTED**

What is Sensor Connect

RCA Sensor Connect is a smart lighting control system that meets the needs of customers with commercial buildings that require a lighting control solution, but are discouraged by the complexity of high cost control systems. RCA Sensor Connect is a stand-alone Zigbee wireless mesh network lighting control system that consists of Wireless Sensors, Wireless scheduling switches, High efficacy LED light fixtures configured using the RCA Sensor Connect app. The app makes it easy to create and configure lighting groups controlled by sensors, switches, and automatic schedules that optimize energy savings. It can create unlimited independent control groups without additional network infrastructure.

What We Offer

1. Hardware

Luminaires

Scheduling Switches

Scene Selector

Multi-Sensors

Communication Dongle

Commissioning Tools

2. Software

Sensor Connect Android App

Provides Luminaire Level Lighting Controls from a mobile app. Talk to and program your lights with the touch of a button.

Secure Zigbee Network

Hosted locally, keeping it secure.

3. Support

Simple Commissioning

An RCA team member on-site to help you for a full or half day.

TeamViewer Technical Support

With TeamViewer, we can view your screen, and help you every step of the way.

Designed and Developed for a Variety of Users

The RCA Sensor Connect system adapts to a wide range of install types, from an out-of-box, independent control to the total building management experience.

Job Specifiers
Energy friendly rebates available

Benefits	
	Simple stand-alone system
	Allows non-experts to easily control lighting
	Lower Installation Cost
	Easy to specify since RCA makes all the items needed.

Installers
Saves hours/weeks of wiring

Benefits	
	No re-circuiting or new control wiring
	Easy Installation & Maintenance
	Significant Reduction in install time
	Requires fewer people to install

Building Owners
Easy tenant upgrades & adds equity

Benefits	
	Saving installation & energy costs
	Provide optimum lighting control
	Long Term Flexibility
	No rewiring when reconfiguring lighting to new tenants

“Highly efficient and cost-effective solution that removes the complexity from design...”

Major reductions in energy consumption from lighting can be achieved through smart lighting controls. Smart lighting controls done correctly can improve the ambiance of the building environment and significantly reduce installation and maintenance costs. The RCA Smart Lighting system delivers a highly efficient and cost-effective solution that removes the complexity from design, specification, installation, and maintenance.

SIMPLE CHOICE TROFFER

Smart Sensor Embedded High Efficiency Lighting

APPLICATIONS: INDOOR, OFFICE, COMMERCIAL, SCHOOL, HOSPITALS

Next generation smart lighting, with greater flexibility and connectivity options. The Simple Choice Series leads a broad portfolio of RCA troffers and flat panel lights with a commercial spec-grade and retrofit kit offering that drives profitability and payback for any commercial application.

Plug-and-Play ZigBee Enabled Lighting Controls.

Protective, Commercial grade, 20-gauge cold rolled steel housing.

Easy maintenance: enclosed lamp chamber prevents debris build-up.

Optional Factory installed battery back-up Available

STANDARD FEATURES

Out-Of-The Box

FUTURE PROOF & SCALABLE

SI Models, Out-of-the-Box

The Simple Choice performs true to spec out of the box. 0 - 10 V dimming capable & **Ready to make the Upgrade to LLLC when you are.**

LUMINAIRE LEVEL LIGHTING CONTROLS

Upgrade with Sensor Connect Smart Controls & Accessories

OCCUPANCY SENSING

Requires | SC Models or RCA-MULTI-SENSOR

An embedded Multi-Sensor with tactile buttons for easy standalone lighting controls. Program min/max levels, motion detection and more.

**WIRELESS CONTROLS
& OCCUPANCY SENSING**

Requires | SC Model, Multi-Sensor & Android Phone

Convert your lights into a wireless mesh network using your Android Device. Group and commission your lighting network, and set up advanced LLLCs.

3500 K, 4000 K & 5000 K Selectable CCT

SELECTABLE CCT LED PANEL

Selectable white dynamic lighting with adjustable power

APPLICATIONS: INDOOR, OFFICES, RESTAURANTS, SCHOOLS, HOSPITALS

Selectable Flat Panels usher in a new generation of controllable Lay-In Lights.

Selectable White, (Variable CCT) enhances any areas lighting design, by offering multiple color temperature and power usage levels that are flexible to individual needs and preferences.

Field-Adjustable Light output and Selectable White.

9-in-1 saves shelf space and increases product availability.

0-10V Control Options provide even more fine tuning.

High Efficiency LEDs and Drivers offer up to 140 lm/w

SELECTABLE CCT LED PANEL Performance Summary

**110°
Beam Angle**

**Up to
7,000 lm**

**Up to
140 lm/w**

**0 - 10 V
Dimming
Capable**

Easy to wire & easier to adjust to your needs..

No extra wiring is required for color or brightness tuning. Other Tunable Lighting systems can require DMX cables, color-mixing interfaces, multi-channel drivers, etc, that can take time to install. RCA Tunable White Lights feature an easily accessible dip-switch on the driver for quick adjustments. Need more space for wiring? Add on the large junction box with 8 knockouts for extra space to add connections, daisy chain lights, and more. Customize this light to fit your preferences.

PHL SERIES

High Lumen Output LED Flat Panel

APPLICATIONS: LOBBIES, AUTO DEALERSHIPS, GYMS, NATATORIUMS, RETAIL

The PHL is a 19,500 lumen LED flat panel designed for high mounting height areas that require high lumen output with low glare. Built to deliver unrivaled performance and durability, this high output LED flat panel delivers up to 19,500 lumens at 130 lumens per watt.

Robust Integrated Heat Sink for High Lumen Output

0-10V Dimmable Controls

Up to 400 W Metal Halide Replacement

Proprietary PMMA Polycarbonate Glare Reducing Lens

HB 600 SERIES | LINEAR HIGHBAY

Industrial High Output Light for Indoor Applications

APPLICATIONS: HIGHBAY, MIDBAY AND AISLE FOR COMMERCIAL FACILITIES

The linear style '600' series High Bay is durable with a housing made of high impact extruded 6063 aluminum alloy and can handle all the requirements of industrial lighting. IP66 Certified, with optional factory installed NSF upgrades, the HB6 is able to be used in sanitation focused high-ceiling locations.

NSF Capable: Wet Location rated and can be upgraded to meet NSF

Motion & Wireless controls capable for increased energy savings

High Voltage options available in 4' and 5' sizes

Battery Backup Options available

Easy to install and water-tight enclosure

The 600 Series High Bay has an external IP66 rated Driver that makes for easy replacement if ever needed. A dust-free, water-tight enclosure keeps lights bright with no build up of internal debris. The 600 Series High Bay includes a 10' PVC whip with a removable water-tight connector included to help make installation fast and easy.

SIMPLE CHOICE: PERFORMANCE

Industrial High Output High Bay for Indoor Applications

APPLICATIONS: GYMNASIUMS, WAREHOUSES AND OTHERS

A performance model round highbay within the suite of RCA Highbays. IP65 and NSF rated the Performance Highbay is a one-for-one replacement for HID fixtures, particularly in sanitation-focused high ceiling locations. Engineered with pure aluminum dual layer body to be light weight and for fast heat transfer.

Performance model with high efficiency drivers & heat management.

Fast Install: Lightweight with mounting options to replace HID fixtures.

IP65 & NSF Certified fixture and accessories.

Multiple Control Options with Sensor Connect for commissioning.

THE REACHER SERIES

Dock lighting

APPLICATIONS: LOADING DOCKS, WAREHOUSE

The Reacher Series dock light is designed to withstand even the harshest of loading dock environments. With its heavy-duty built design with rugged components and double swing pivot arm, this light is both durable and easy to position.

Built-in heat dissipation - always cool-to-the-touch.

On/Off Switch on back of lamp.

Easily positions to provide light inside entire length of trailer.

Features a powder-coat finish in "Safety Yellow", standard.

Cool to the Touch and Impact Resistant

This impact resistant and lens protected LED light always remains cool to-the-touch and fully adjustable while holding up to the toughest work environments with its included wireguard, protective coating, and strong materials. Perfect lighting where you need it, when you need it.

275° Beam Angle

SH SERIES WRAP | UPLIGHT

Super Wide Uplight, High Output LED Wraparound

APPLICATIONS: INDOOR, OFFICE, NEW CONSTRUCTION, WAREHOUSE

Powerfully efficient, the SH series covers more ambient surface area than its competitors, all at 120 Lumens per Watt. Models starting at 15,240 lumens, the SH series is a high output light engineered to cast light over a 275° area in large buildings, warehouses and factories.

Designed for Shipping & Sorting Areas. High Output LED Lighting.

Sealed fixture prevents dust and debris build up for easy maintenance.

Installer Friendly, quick access channel for end to end wiring.

Plug-and-Play ZigBee Enabled Lighting Controls

STANDARD FEATURES

Out-Of-The Box

FUTURE PROOF & SCALABLE

SH Models, Out-of-the-Box

The SH Series performs true to spec out of the box. 0 - 10 V dimming capable & **Ready to make the Upgrade to LLLC when you are.**

LUMINAIRE LEVEL LIGHTING CONTROLS

Upgrade with Sensor Connect Smart Controls & Accessories

OCCUPANCY SENSING

Requires | SH Models or LGE-MULTI-SENSOR

Place the Multi-Sensor in SH Harness* for easy standalone lighting controls. Program min/max levels, motion detection and more using tactile buttons.

WIRELESS CONTROLS & OCCUPANCY SENSING

Requires | SH Model, Multi-Sensor & Android Phone

Convert your lights into a wireless mesh network using your Android Device. Group and commission your lighting network, and set up advanced LLLCs.

SHL SERIES WRAP | ASYMMETRIC

Lowbay Lighting for warehouse and shipping areas

APPLICATIONS: INDOOR, OFFICE, NEW CONSTRUCTION, WAREHOUSE

Asymmetric Lowbay lighting designed to reduce the obtrusive effects of lighting including light spill and glare. Designed primarily for warehouse and shipping areas where glare control is essential, the SHL series light performs well in areas that require directional lighting.

Down lighting for shipping and sorting areas.

Impact-Resistant polycarbonate frosted lens.

Completely sealed fixture prevents dust and debris build-up.

Wireless lighting Controls Ready.

PLA SERIES

Modular Outdoor Area/Site Lighting

APPLICATIONS: PARKING LOTS, WALKWAYS, DEALERSHIPS, COLLEGE CAMPUSES

The PLA Series light is designed to provide 1-for-1 solutions for replacing existing metal halide or high pressure sodium lighting. The PLA Series light comes in 3 sizes and power packages that can easily replace 175W, 250W & 400W Metal Halide Luminaires, and in some cases, 1000 W models.

Multiple Lumen Packages & Accessories with the same design profile.

Energy efficient upgrades for up to 400W Metal Halide Luminaires

No loud parking lot hum. Our LEDs run quiet.

Dusk to Dawn technology maximizes cost-saving benefits.

PARKING LOT LIGHT Performance Summary

Type III
Beam Angle*

Up to
56,800 lm

Up to
145 lm/w

**High
Voltage
Available**

Long Life, Low Maintenance.

Long Life, consistent color rendering & low maintenance. PLA Series doesn't make sacrifices for color rendering or long life, like HID or High-Pressure Sodium. Our LEDs provide a consistent 5000K color, throughout its 20 year expected life. Perfect for car dealerships, campuses, walkways, parking lots, and more.

SMART MULTI SENSOR

Occupancy & Ambient Plug-and-Play Sensor

WORKS WITH: SIMPLE CHOICE TROFFERS, DOWNLIGHTS & STRIP LIGHTS

The field installable multi sensor features a Passive Infrared (PIR) motion sensor with ambient light sensor for occupancy sensing & daylight harvesting. Users can program a single sensor or group and commission a number of fixtures all at once with ZigBee or Smart Luco.

Plug into any RCA Smart Dongle for Easy Setup and Installation

Bluetooth or Zigbee Wireless Controls for Grouping and Commissioning

Maximize energy savings with occupancy sensors.

Ambient light sensor for daylight harvesting.

STANDALONE & NETWORK FUNCTIONALITY

Use the RCA Multi-Sensor

Standalone
Plug-in
Occupancy
Sensor

Easy plug-and-play lighting controls & sensors. The field installable Multi-sensor features a occupancy sensor & ambient light sensor, tactile buttons make it easy to program to your needs without the use of a mobile device or wireless network.

Networked
Sensor with
Wireless Control

Convert your lights into a wireless mesh network using your Android or iOS device. With the multi-sensor and wireless communication module you can group and commission your lighting network and set up advanced LLLCs.

ZIGBEE TO ANALOG TRANSFORMER 1.0

First Generation, Driver Style ZAT

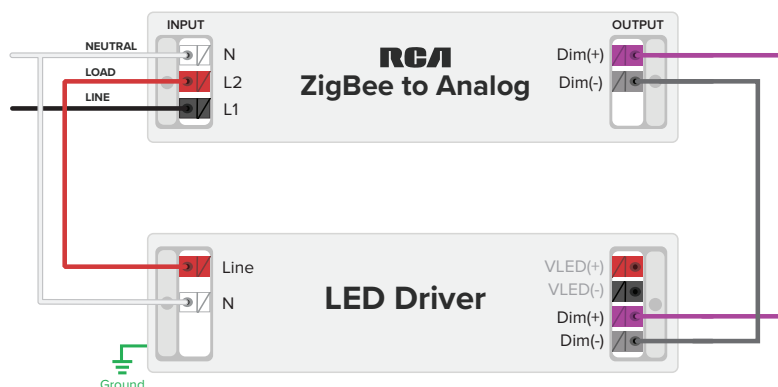

WORKS WITH: ANY LED LIGHT OR AC LOAD

- Applied Internal Load Switch to Control AC main On/Off
- Integrated AC-DC supply for stand-alone operation
- Support 1 - 10V Dimming
- 2.4 GHz ZigBee® Transceiver
- Flexible Platform to accommodate diverse protocols
- Supports RCA Sensor Connect
- Supports Autani, and Daintree Networks ControlScope
- DLC, NLC, QPL Listed Lighting Accessory

Convert Dumb lights to work with Sensor Connect

Our first-generation, driver-style device is used to convert existing spaces with traditional lighting controls to smart lighting. The ZAT Gen 1 is easy to wire to an existing LED driver, and can function as a stand-alone light control. The Gen 1 ZAT can be placed inside a protective enclosure, or mounted to your fixture

See the ZAT wiring diagram

Voltage	120 - 277 Vac	Weight	0.4 oz
Frequency	50/60 Hz	Operating Temperature	-4° to 158° F (-22° to 70° C)
Dimming	1 - 10 Vdc	Certifications	DLC, NLC, QPL Listed

ZIGBEE TO ANALOG TRANSFORMER 2.0

Convert dumb lights to work with RCA Sensor Connect

WORKS WITH: ANY LED LIGHT OR AC LOAD

Add your lights to the RCA Smart Lighting System with the ZAT. This zigbee to analog transformer adds zigbee wireless compatibility to any LED light, or AC load. Mount the ZAT to a 1/2" knockout in any standard junction box, and plug in one of RCAs multi-sensors or wireless dongles to activate your lights.

Add Zigbee Wireless Compatibility to any LED Light or AC Load

High Max Load (8A); Enables Daisy Chaining of multiple lights

Supports RCA Sensor Connect and Daintree Networks ControlScope

No enclosure needed, mounts to 1/2" knockout in a standard jbox

Add Wireless Control to Any Light or Room

The ZAT is the perfect solution for existing spaces with traditional lighting controls, that are looking to upgrade to a smart lighting setup. The ZAT easily mounts to a 1/2" knockout in any standard junction box, and can function as a stand-alone light control, a room controller, or a motion sensor for your zigbee network.

SCENE SELECTOR

Wireless Lighting Control Switch with Multiple Settings

APPLICATIONS: CONFERENCE ROOMS, COMMON AREAS, CLASS ROOMS

Common areas in buildings are used by multiple users for more than one purpose, requiring different lighting conditions. RCA Scene Selector is a preset control system that adjusts several lighting channels simultaneously to provide the proper lighting for each application of the room.

- Wireless:** Saves money on installation, running cable and drywall repair
- Easy setup and commissioning** using the RCA Sensor Connect App
- Integrated scheduling function** for additional energy saving
- Program up to 4 lighting scenes** for different room requirements

SCENE SELECTOR INSTRUCTIONS

How to use the RCA Wireless Scene Selector

- Status LED (Power / DIM)**
Indicates status of low battery and OTA
- Toggle Button**
ON / OFF / DIM (hold)
- Scene Status (Operating)**
Indicate status of current scene
- Tap Button**
Recall Scene
Default: 25%, 50%, 75%, 100%

WIRELESS SCHEDULING SWITCH

Group Control Wireless Lighting Switch

WORKS WITH: SENSOR CONNECT ENABLED LIGHTS

The RCA Wireless Scheduling Switch is ideal for commercial, office, and industrial applications. The virtual on/off function improves lighting efficiency and reduces energy costs by up to 50%, and the Wireless Smart Switch enables fine control over multiple groups of sensor connected, smart lights with 100 step variables.

- Wireless:** Saves money on installation, running cable and drywall repair
- Dimmer Switch** Provides continuous 100 Step Dimming
- Integrated scheduling function** for additional energy saving
- Control 2 Groups of Lights, ON/OFF/Dimming**

Group Control Functions

The RCA Wireless Scheduling Switch (LGE-SWITCH-4B-BT) can control multiple light groups. Use the 'Tap Buttons' 1 & 2 to control ON/OFF and Dimming Functions for 1 group of lights, and 'Tap Buttons' 3 & 4 to control ON/OFF and Dimming for a 2nd set of lights.

SCHEDULING SWITCH INSTRUCTIONS

How to use the RCA Scheduling Switch

	Group 1 Tap Buttons	Group 2 Tap Buttons
1	Group 1 ON Controls Group 1 Lights	Group 1 ON/RAISE Controls Group 1 Lights
2	Group 1 RAISE Controls Group 1 Lights	Group 1 OFF/LOWER Controls Group 1 Lights

Example: LGE-SWITCH-2B-BT

Product	Product Type	Model Number	Power	Frequency	Range	Dims	Weight	Operating Temp	Controls
Scheduling Switch Battery Type	1 - Group (4 Buttons)	LGE-SWITCH-2B-BT	AAA Alkaline 1.5 V Battery (4 Each)	2. GHz	100 ft.	4.84" x 2.8" x 0.72"	3.2 oz (Without Battery)	-4° to 122° F	ZigBee
	2 - Group (4 Buttons)	LGE-SWITCH-4B-BT							

AC POWERED SCHEDULING SWITCH

Smart Lighting Switch, with Scheduling Functions

WORKS WITH: SENSOR CONNECT ENABLED LIGHTS, IDEAL FOR RETROFIT

Easy replacement for new or existing switch locations, the RCA smart lighting switch fits into a standard wall-box (deep preferred) and can control multiple smart light groups. Integrated real time clock helps save energy with set-scheduling, and it has a two-wire build which makes it ideal for retrofit applications.

Easy replacement for new or existing switch locations.

Fits into Standard wall-box

Two-wire (non-neutral) works for retrofit applications

Control 2 Groups of Lights, ON/OFF/Dimming

Group Control Functions

The RCA Scheduling Switch (LGE-SWITCH-4B-AC) can control multiple light groups. Use the 'Tap Buttons' 1 & 2 to control ON/OFF and Dimming Functions for 1 group of lights, and 'Tap Buttons' 3 & 4 to control ON/OFF and Dimming for a 2nd set of lights.

SCHEDULING SWITCH INSTRUCTIONS

How to use the RCA Scheduling Switch

Group 1 Tap Buttons		Group 2 Tap Buttons

PRE-COMMISSIONING STATION

21 Slot Commissioning Station for Wireless Dongles

WORKS WITH: RCA MULTI-SENSORS AND WIRELESS DONGLES

The Lighting Pre-Commissioning Station (LPCS) is a great addition to the installation technician's tool bag when commissioning with the RCA SensorConnect App. The LPCS allows you to program up to 21 devices at once for quicker commissioning time. It is ideal for an electrician that wants to commission multiple devices: downlights, troffers, linears, and more.

Makes Commissioning Easy!

Commission from your desk or workplace before installation

Programs up to 21 Sensors or Modules at a Time

Outlets	21 Slots	Certifications	DLC, NLC, QPL Listed

WARRANTY & RETURNS

Limited Warranty

For warranty on your RCA Commercial Light, will be repaired or replaced in accordance with the terms of this warranty, at RCA Commercial's option. If it proves to be defective in material or workmanship under normal use, during the warranty period ("Warranty Period") listed below, effective from the date ("Date of Purchase") of original consumer purchase of the product. This warranty is good only to the original purchaser of the product and effective only when used in the united states, excluding U.S. Territories.

Warranty Period

The warranty on your RCA Commercial Lighting product is **5 Years from the Date of Purchase**. Your warranty period begins on the date of invoice from the dealer. **KEEP THE DEALERS DATED BILL OF SALE OR PROOF OF DELIVERY** as evidence of the purchase date. If repaired, parts used in the repair may be new or re-manufactured. You will be required to submit a legible copy of your bill of sale or proof of delivery when requesting warranty service. Products that fail out of the box or within 60 (sixty) days from date of shipment shall be deemed "DOA" (Dead on Arrival) and will be replaced, not repaired by RCA.

Replacement units and repair parts are warranted for the remaining for the remaining portion of the original unit's warranty period.

THIS WARRANTY IS IN LIEU OF ANY OTHER WARRANTY, EXPRESS OF IMPLIED, INCLUDING WITHOUT LIMITATION, ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. TO THE EXTENT ANY IMPLIED WARRANTY IS REQUIRED BY LAW, IT IS LIMITED IN DURATION TO THE EXPRESS WARRANTY PERIOD ABOVE. NEITHER THE MANUFACTURER NOR ITS U.S. DISTRIBUTOR SHALL BE LIABLE FOR ANY INCIDENTAL, CONSEQUENTIAL, INDIRECT, SPECIAL, OR PUNITIVE DAMAGES OF ANY NATURE, INCLUDING WITHOUT LIMITATION, LOST PROFITS, LOST OR CORRUPTED PROGRAMMING OR DATA, OR ANY OTHER DAMAGE WHETHER BASED IN CONTRACT, TORT, OR OTHERWISE.

Some states do not allow the exclusion or limitation of incidental or consequential damages on how long an implied warranty lasts, so the above exclusion or limitation may not apply to you. This warranty gives you specific legal rights and you may also have other rights that vary from state to state.

Warranty Procedure

Call 1-800-RCA-2161 and ask for Tech Support. An engineer will work to troubleshoot the problem with the LED Light. If it is determined to be a simple fix the necessary tools to fix the problem will be shipped overnight to the facility. If it is determined that the unit is defective, a replacement will be sent to the facility with a call tag to return the defective unit.

Returns

Your satisfaction is our number one priority. Please notify us immediately of any product defects or incomplete shipments & please contact us with any questions or concerns. If there is need to return a product, please make note of our 30-day return policy:

- | Must return within 30 days of product receipt.
- | All returns after 30 days will be evaluated on a case-by-case basis.
- | All returns are subject to a minimum 20% restock fee.
- | Customer must return items back on their cost & shipping account.
- | Any shipping damage return items will not be refunded/credited
- | Refund/Credit will be evaluated upon receipt of product.
- | Product/s in unacceptable condition will be returned to the customer and no refund/credit will be issued.
